

Easy Poker

Easy Poker

Easy Poker is similar to Stud Poker and the objective of the game is to get a higher ranking hand than the dealer. In Easy Poker a Straight beats a Flush. However, with Easy Poker there are three ways to bet and four ways to win.

How to Play

Easy Poker is played with a standard 52-card deck. The game allows the player to bet against the dealer, to bet only on the combination cards in their hand or to bet both against the dealer and on the combination of their own hand. In addition there is an Ante Bonus pay table.

In Easy Poker the player and the dealer are both dealt three cards, face down. Easy Poker hands are ranked from highest to lowest as per the examples below:

Straight Flush
(Same suit)

Three of a kind
(Same kind)

Straight
(3 in Sequence)

Flush
(3 of the same suit)

Pair
(2 of the same kind)

Pair Plus

In Easy Poker a player can play the Pair Plus bet only, this means the player is betting that his or her three-card hand will receive a pair or better. This bet loses or wins immediately after the player reveals his or her cards.

Ante

The bet is placed when the player wishes to play against the dealer's hand. However, the player can play both the Pair Plus bet and the Ante bet at the same time.

Once all players have received their three cards they may look at their hands and decide if they wish to continue. If the player believes that his or her hand is going to be better than that of the dealer's the player must place an additional bet in the play box. If the player chooses not to continue he or she must fold, which means the Ante bet will lose and the card will be removed.

Play Box

This bet must be equal to the Ante bet. Once all players have made their decisions and placed their bets, the dealer will reveal his or her three cards. The dealer opens with a Queen or better. If the player also wagered the Pair Plus bet, this result is determined by the payable and is independent of the dealer's hand.

Ante Bonus

In addition to previous paytables, Easy Poker also has an Ante Bonus payout, which again is paid irrespective of what the dealer has. This is an additional payout and is paid against the Ante bet bonus as per the payable.

Notes:

Straight ranks higher than Flush
Ace is high except in 3-2-Ace sequence
3-2-Ace is lowest Straight or Straight Flush
The Pair Plus and Ante Bonus bets are paid irrespective of the dealer's hand

Remember

The dealer is there to help you, please do not hesitate to ask for assistance at any time. We sincerely hope you enjoy your experience when playing Easy Poker at Sun International Casinos.

Straight	4 to 1

Rules

- Players may not communicate any information regarding the content of their hands or exchange their cards. Any infringement of this rule will result in the automatic loss of bets placed.
- An incorrect number of cards dealt to any hand or any card dealt face up to a player's hand will result in a misdeal i.e. the cards will be re-dealt in total. One box per seated player only.
